WORLD'S MOST COMFORTABLE SPAS

Designed and engineered in Canada

EXPERIENCE THE PACIFIC SPAS DIFFERENCE.

Committed to enhancing your overall wellness.

At Pacific Spas, we understand the importance of relaxation and personal wellbeing in our fast-paced lives. With decades of experience in the spa industry, we have engineered our products to deliver maximum hydrotherapy and aquatic performance, ensuring that you can experience pure bliss and rejuvenation right in the comfort of your own backyard.

Crafted with Care, Built to Last

Our commitment to excellence extends to every aspect of our products. Each Pacific Spa is carefully designed and meticulously manufactured to ensure durability and reliability. We embrace new technologies and incorporate them into our designs to deliver cutting-edge products that enhance your life. Our dedication to constant improvement drives us to continually refine and enhance our offerings, guaranteeing a spa experience that exceeds your expectations.

An Integrated Approach to Success

We understand that a truly successful product is more than just the sum of its parts. At Pacific Spas, we believe that success lies in the careful integration of technology, manufacturing quality, innovative design, and unrivalled customer support. Our team of experts collaborates closely at every step of the process to create a complete package that delivers both functionality and beauty. We strive to surpass industry standards, setting new benchmarks for spa experiences worldwide.

The art of relaxation, the science of design.

Premium Quality at an Unbeatable Value

Pacific Spas is dedicated to providing exceptional spa experiences that are affordable and of the highest quality. We strive to offer luxurious spas that promote relaxation and wellness without causing financial strain.

Quality of Massage

At Pacific Spas, we take pride in creating spas that are the embodiment of innovation, functionality, and customer satisfaction. With rigorous attention to detail, our team carefully positions every single jet, considering its dimensions and functionality, to ensure that each spa meets your unique needs and delivers an unforgettable hydro-massage experience.

Low Running Costs

At Pacific Spas, we acknowledge the significance of energy efficiency and environmental sustainability. To that end, our hot tubs and swim spas boast an advanced multi-step insulation system. This innovative technology effectively retains heat within the spa, minimizing energy consumption and maintaining warm spa water for extended durations. The consequential benefits include reduced energy expenses and a smaller carbon footprint.

Dependable Structure

All Pacific Spas are constructed with triple layered perimeter insulation, which allows easier serviceability and longevity of the spa. Our structure and foundation is everlast aluminum framing to ensure the long term structural integrity of the spa.

Durability

We believe that your investment in a spa or swim spa is an investment in a better life, and we take that responsibility seriously. That's why Pacific Spas are built to last. We use durable components and ensure easy accessibility, reducing maintenance to a minimum. With our spas, you can focus on enjoying your personal oasis without the hassle of constant repairs or upkeep.

Exceptional Service

At Pacific Spas, we firmly believe in enhancing the customer experience beyond the product itself. This is why we are committed to offering unparalleled customer support, comprehensive sales and after-sales services, as well as top-notch technical assistance.

Crafted with you in mind. Dedicated to improve your wellbeing.

A woman is relaxing in a hot tub, which is the central focus of the image. The hot tub is dark-colored with a control panel on the left side. The woman is wearing a light blue swimsuit and is looking towards the camera. The hot tub is situated on a wooden deck. In the background, there is a dense, lush garden with various tropical plants and trees. The lighting suggests it is a sunny day. The overall atmosphere is relaxing and peaceful.

SWIM SPA SERIES

At Pacific Spas, we believe that water workouts can be the key to a happier, healthier lifestyle. That's why we've developed a line of high-quality products that enable you to create the ideal aquatic exercise routine. Whether you're looking for a challenging workout or a more gentle approach, our spas provide ample space to help you tone your body, improve heart health, and surpass your fitness goals. With our swim spas, you can become the hero of your own aquatic journey!

Powerful Features. Unmatched Performance. Great Experience.

Increased Water Depth: Ready for Your Workout

Pacific Swim Spas offer increased water depths and an efficient heating system, ensuring that you have the perfect conditions for your aquatic workout.

Powerful Swim Jets: Endless Swimming Pool

At the center of the action in our swim spas are powerful and accurately placed river jets. Extensive engineering has gone into bringing you the unique experience of a virtually endless swimming pool. These river jets create a steady current that allows you to swim in place, no matter how large or small your swim spa is.

Air Valves with Integrated LED Lights

Pacific Swim Spas are not just about the workout – they are a complete sensory experience. LED air valves are available on all of our swim spas, adding an extra layer of visual delight to your swim session.

LED Skirt Lighting: Illuminate Your Nights

Pacific's innovative integrated LED skirt lighting has more than purely functional value. When night falls they turn every swim spa into a visual focal point.

■ Availability of options may be limited to certain models.

KAYAK

Prepare to be wowed by the Kayak! With a spacious swimming area, ergonomically designed massage seats, and multiple entry and exit points, this aquatic wonder is the perfect way to elevate your backyard game.
